

## RENTAL EQUIPMENT INFORMATION

### GENERAL INFORMATION:

All players must wear required protective equipment at all times during Lacrosse America programs. Equipment can be rented/purchased at any of our [retail stores](#). We are the only Lacrosse specialty store in Illinois and are experts on fit and performance.

Required **BOYS** equipment available for rent: Helmet, shoulder pads, arm guards and gloves. (Must purchase stick, athletic supporter, and mouth guard.) Rib guards are optional and are available for purchase, but not for rent. Hockey helmet and pads may be used in place of lacrosse equipment. However, most players prefer lacrosse gloves to hockey gloves due to flexibility.

Required **GIRLS** equipment available for rent: Eye wear. (Must purchase stick and mouth guard.)

All players, both boys and girls, are required to supply their own appropriate footwear and attire. Cleats are recommended for grass fields, while turf shoes or gym shoes are recommended for turf fields. Some turf fields do allow cleats. No metal spikes are allowed in any Lacrosse America program. Football, soccer or lacrosse cleats are recommended. Lacrosse America staff strongly discourages the use of baseball cleats during lacrosse play.

**READY TO PURCHASE?** – Buy an equipment package from any Lacrosse America retailer (consists of a helmet, elbow pads, shoulder pads and gloves) and receive 20% off the total price of the package! Lacrosse America recommends players rent equipment until their growth slows. Lacrosse America does not sell its rental equipment.

### RENTAL PROCEDURE:

Please rent/purchase lacrosse equipment before the start of your program and make sure to bring all equipment on the first day. Equipment is rarely available at the field. Equipment rented at the start of the season is yours to keep until the end of the program. On the last day of the program, you may return your equipment at the field, or roll it over and keep it for the following season. If you miss the last day of the program, you may mail or deliver your equipment to any [Lacrosse America](#) location. You must inform Lacrosse America if you will be rolling over your equipment to the following season (fee will be charged.) Any unreturned equipment that has not been designated for rollover will be charged the deposit fee.

**NOTE:** Lacrosse America CAN NOT rent equipment to high school players during their spring high school lacrosse seasons. You may rent the equipment for HIGH SCHOOL TRY-OUTS ONLY. [Click here for more information](#).
